

Project Development Phase

Sprint-4

Team ID	PNT2022TMID38119
Project Name	Personal Assistant For Seniors Who Are Self Reliant

1.CREATE A IOT DEVICE FOR SIMULATION WITH ARDUINO UNO USING TINKERCARD :

2.USING NODE- RED DESIGN A WEB UI FOR THE MEDICINE REMINDER WITH CONNECTION OF IBM IOT WATSON AND CREATE A DEVICE AND CONNECT TO THE NODE RED .

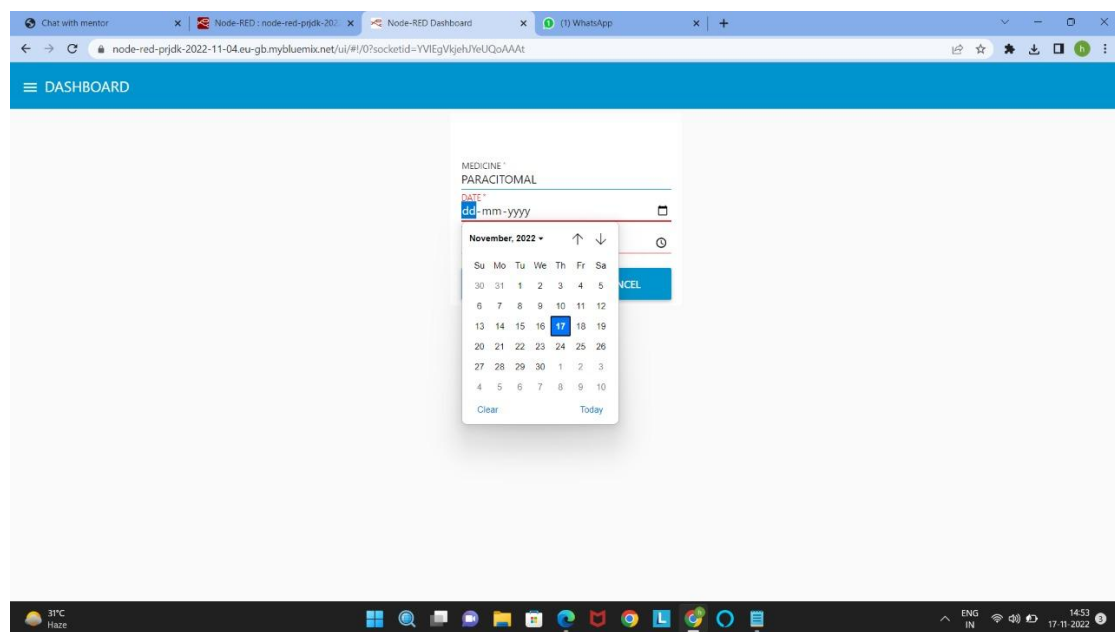

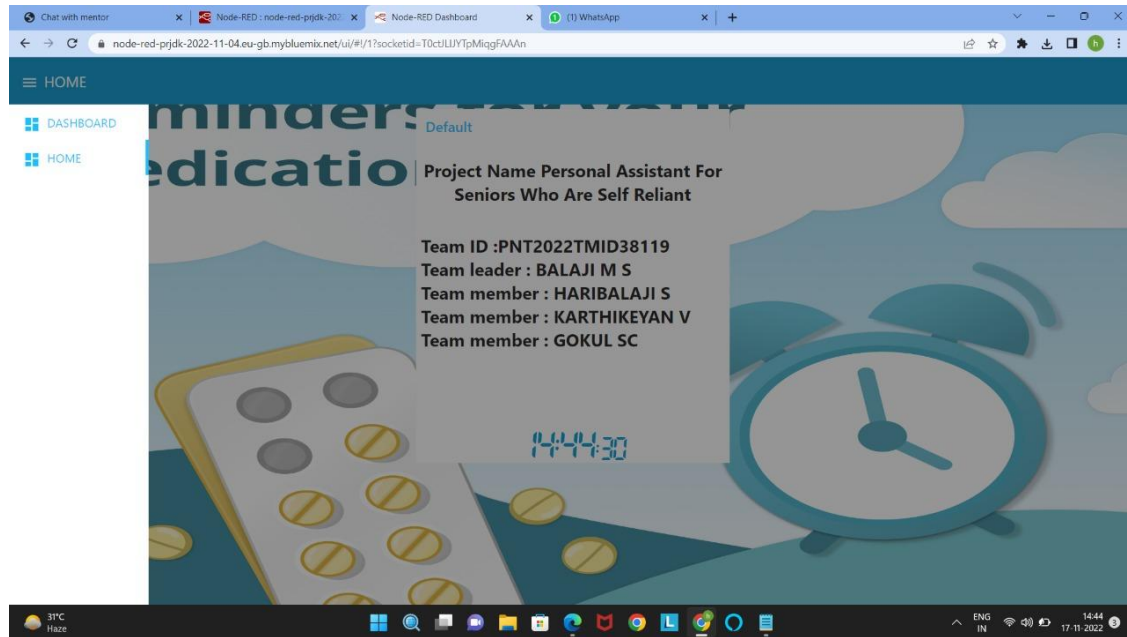

Organization ID - y2eaa1

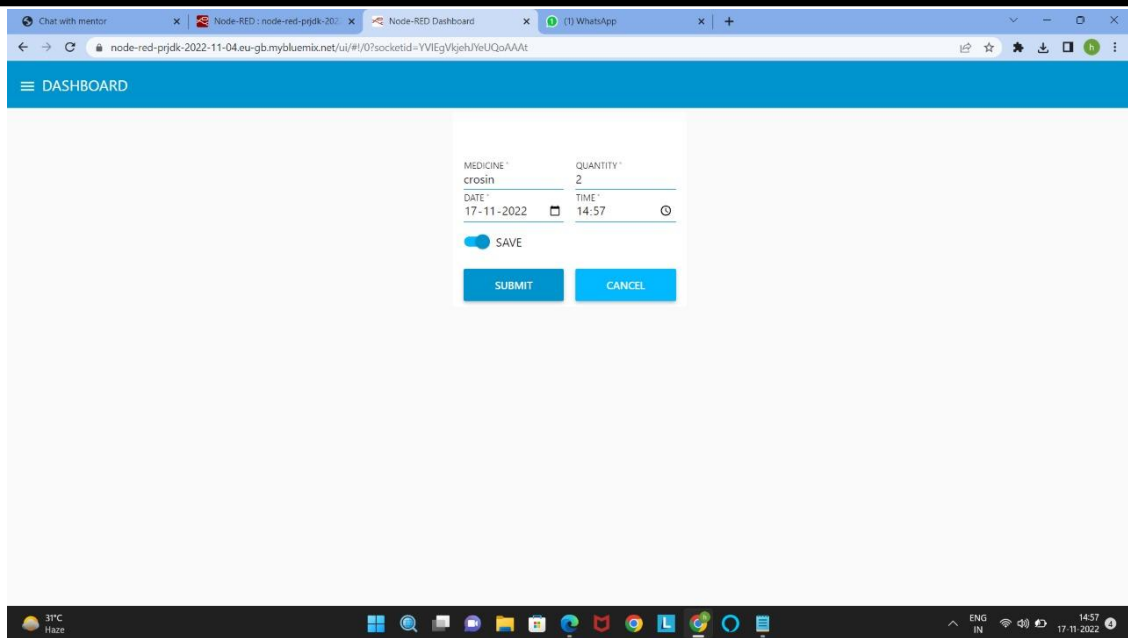

Device Type - IBM-IOT-PROJECT

Device ID - IBM-IOT-PROJECT

Authentication Method - use-token-auth

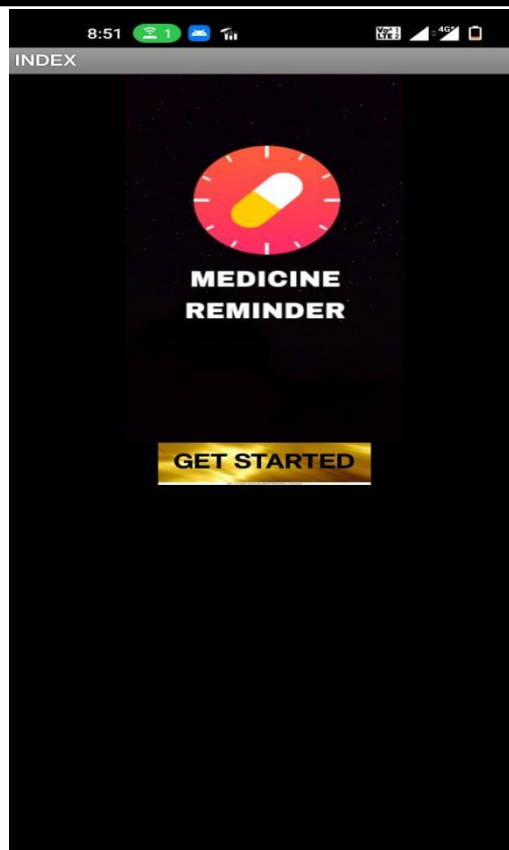

Authentication Token - bsc+zfc35MxBY?d_ts

3.WE CREATE AN APPLICATION USING MIT APP INVENTER :

This is a form screen titled 'PERSONAL DETAILS !!!' in blue, italicized, bold, uppercase letters. At the top, a status bar shows the time as 8:52 and various system icons. Below the status bar, a grey header contains the text 'Screen2'. The background is a blue gradient. At the top center, there is a blue circular icon with a white 'i' inside. Below the title, there are three input fields: 'NAME' with the placeholder text 'ENTER YOUR NAME', 'AGE' with the placeholder text 'ENTER YOUR AGE', and 'GENDER' with the option 'MALE' selected. At the bottom, there are two yellow rectangular buttons: 'SAVE' and 'NEXT', both in black, bold, uppercase letters. The bottom half of the screen has a purple gradient background.
